

## **IRS Releases Latest Form 7200**

Dear Valued Client,

The IRS has released the finalized revision of [Form 7200](#). The form can now again be used to request advance payment of COVID-19 tax credits from the IRS.

The latest Form 7200 includes several changes, including a line to claim credits for COBRA premium assistance provided by employers. Viventium is in the process of updating our "Uncollected COVID-19 Tax Credits" report to reflect the latest changes. In the meantime, eligible employers can already use this report to help them complete the other COVID-19 credit information in Part II of the form. We will let you know when support for the COBRA payments has been added to our "Uncollected COVID-19 Tax Credits" report.

If you have any questions, please reach out to your Dedicated Client Service Team.

In it with you,  
Your Viventium Team
